Reviews

This publication is really gripping and exciting. It really is basic but unexpected situations in the 50 % in the book. It is extremely difficult to leave it before concluding, once you begin to read the book.

Brand New Book ***** Print on Demand *****.I went on my first diet at age 10 and from then on I can honestly say I was always on some sort of diet. I tried them all and all I did was go up and down, then up and down again with no permanent results. By the time I was 33 not only was I still overweight but I was depressed too. I was married and had 4 small children and I remember asking myself, Is this it? Are my best years behind me Is my life just about keeping my head above water and taking anti-depressants What happened to me !! I wanted more out of life. I wanted more for my children than just a mother who was existing. And then one day it all changed. I read an article during the Christmas holidays of 2003 about how it takes 21 days to create new habits. I figured if I could just change my eating habits permanently I d get real long-term results. But I also knew that making drastic changes would just overwhelm me, deprive me and drive me deeper into my depression. On January 1, I sat down with a brand new 2004 calendar and decided I was going to make 1 change a week. That s it. Focus on that one change and add a new one each week. Four months later I was 30 pounds lighter, 6 months later I weaned off my medications and 52 weeks later I was a whole new person ready to live.REALLY LIVE!!! The following pages are a list of the changes I made week after week. You can use the boxes to check off...
