Excerpt: . . . 1995 using an SOI sample supplemented to include nonfilers, and on the change in the distribution of statutory marginal tax rates over the 1980-1995 period using a panel of tax returns. In 1995, over three-quarters of filing units were in the zero or 15 percent tax bracket, and more than 96 percent faced a statutory marginal tax rate of 28 percent or less. The average statutory marginal rate was 13.7 percent. Effective marginal tax rates were higher. The average effective marginal rate was almost 16 percent, and was four percentage points higher for the middle quintile than was the average statutory rate. Between 1980 and 1995, we find that statutory marginal income tax rates have fallen markedly for most households in the tax panel. The evolution of tax rates for individual households is a function of both tax law and the change in households income and other circumstances over time. Our results suggest...
