Not illustrated. 1844 Excerpt: .an amazing amount of industry and research on the part of its author, and which, were it pruned of some irrelevant and objectionable matter (on subjects entirely unconnected with the work itself), would be one of the best standard works of the age. The connection between hydraulics and politics or republicanism is by no means so clear as to admit of these subjects being all mixed up together in one and the same volume. 145. R, Plates I. III. VI. and VII., is the feed pipe, about 3 inches diameter, through which the requisite supply of water passes to the boilers from the feed pump N. This pump (see Plate VI.) is worked by a plunger 20 A inches diameter, having a 2 feet 9 inches stroke, and attached by a rod to the outer arm of the beam. When the plunger rises, water enters from the...
