Her flaming red hair and mismatched eyes make her a prime target for accusation of witchcraft. Orphaned during the Indian raids, she and her brother with Asperger s Syndrome come to live with the key historical figures of the trials-The Putnams. They keep their synesthesia secret- that days, months and years appear as color in Verity s mind, and for John, that symphonies play in a Fantasia-style performance of colors and geometric patterns. Truman Johnstone s ability to discern people s expressions, and decipher if they were lying- made him an outspoken child. Being different kept him from being adopted till he was fourteen. He now runs an orphanage for problem youths, and is a feeding therapist in his desire to help children deal with their peculiarities. To give them the childhood he never had. The harvest festival corn maze Truman creates every year has an unwelcome visitor. Children hear disembodied voices skipping through the corn maze amid the backdrop of eerie orchestral music. In every year of the calendar, intermittent doors of time swing open and closed, so long as the cornfield stands. In societies set on sameness-all are outsiders. They learn the traits that make us outcasts, may be the very ones that make us great, and that true love may heal all, and even transcend time.
