These remarkable gains toward the close of the experiment were no doubt due in part to the better growing weather prevalent at that time. The earlier part of the season was very dry. Fig. 14. Modern tobacco barn on farm of Baughman Bros., Arcanum, O. Built originally for stock barn; accommodates 9 tiers of large tobacco. Total height 47 ft. It is significant that in this test the trash made a smaller proportionate gain than the wrapper grade or the wrapper and filler combined. This is in marked contrast with the results obtained by cutting out alternate plants in 1909, but perhaps the weather conditions were the most potent factor in keeping down the percentage of trash. The influence of variety may also be important in this connection, but this can only be determined by experiment. A note of explanation regarding quality as...
